FLERBAR

Description

The FLERBAR disposable is the newest release from Hyppe!

An upgrade from the Hyppe Q disposable model, the FLERBAR features an upgraded 500mAh battery, and up to 600 puffs of flavourful, 20mg hybrid salt nicotine. The new model features a sleeker design that feels great in your hand, and the flat bottom now enables the device to be stood up on a flat surface.

A classic 'Auto draw' feature makes the FLERBAR a convenient, 'ready to vape' out of the box e-cigarette option for beginner vapers and consumers looking for a low maintenance, hassle free vape, handy when driving or not able to drip or mess around with changing coils and filling tanks.

Another added feature of the product is the bottom airflow. Three holes, at the base of the device could be covered with a finger to restrict airflow for tighter draws. Get the FLERBAR now from Eco Vape Wholesale, available in **20 fruity and iced flavours!**

Product Compliance Info

Eco Vape are one of Europe’s largest e-liquid white-label manufacturers. Situated in 65,000 sq. ft production facility in the heart of the UK, Vape Manufacturing provides a turnkey solution for all your e-liquid requirements.

We work hand in glove with Arcus Compliance to ensure that all of the products they produce and distribute are compliant with Tobacco and Related Products Regulations (TRPR) and the Tobacco Products and Nicotine Inhaling Products (Amendment) (EU Exit) Regulations 2020. This aspect of their work cannot be understated to ensure that the customer benefits from a fully legal and 95% safer than smoking product.
